

-> Create a Login Page with Username, Password inputs and two buttons namely Login and Register

-> If you try to login with any random details it will popup an “invalid details” alert

-> If you click on Register button, it will redirect to the Register Page  
-> You can enter the basic details with username and password and Register yourself

A screenshot of a web browser displaying a registration form. The browser's address bar shows 'localhost:63342/firstTest/idea/Register.html'. The page has a background image of a tropical beach with a small island in the distance. The title 'Welcome to Registration' is centered at the top. Below the title, there are four input fields: 'First Name' with the value 'Ravi', 'Last Name' with the value 'kishore', 'Username' with the value 'ravi14kishore', and 'Password' with masked characters '.....'. A blue 'Register' button is positioned below the password field.

localhost:63342/firstTest/idea/Register.html

## Welcome to Registration

First Name : Ravi

Last Name : kishore

Username : ravi14kishore

Password : .....

Register

-> If you click on the Register button, it will register the values and redirect to the login page where now you can enter the details and login to the Home Page

A screenshot of a web browser displaying a login page. The browser's address bar shows 'localhost:63342/firstTest/idea/Login.html'. The page has the same background image of a tropical beach as the registration page. The title 'Welcome to the Map and Weather service' is centered at the top. Below the title, there are two input fields: 'Username' with the value 'ravi14kishore' and 'Password' with masked characters '.....'. Below the password field, there are two blue buttons: 'Login' and 'Register'.

localhost:63342/firstTest/idea/Login.html

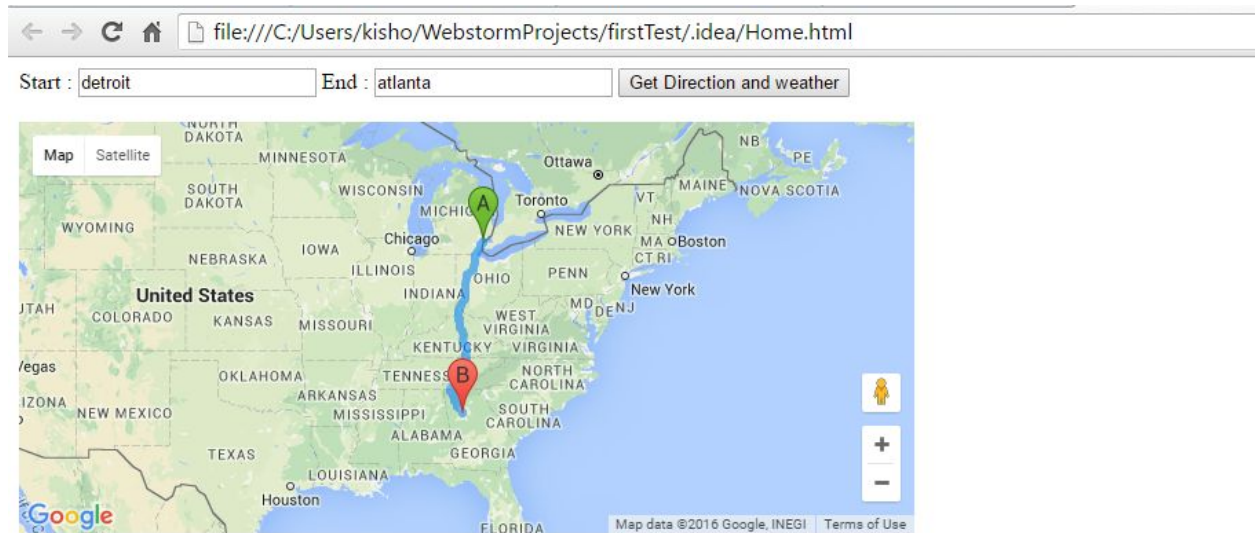

## Welcome to the Map and Weather service

Username : ravi14kishore

Password : .....

Login Register

-> After the login, the Home Page will be shown with the start and end inputs. After entering the inputs and click the “Get the direction and weather” button, the route will be marked on the below map and the weather details will be displayed under the map

## Weather Information

Start Location	End Location
----------------	--------------

Detroit, US	Atlanta, US
-------------	-------------

overcast clouds	Sky is Clear
-----------------	--------------

26°F	39°F
